Revenue

\$200,000 pa

Net Return (working owner)

\$100,000 pa

Location Details

Logan, Redlands, Brisbane, Gold Coast, Ipswich

Currently selects clients jobs close to the home office in Logan can easily take more jobs wider into Redlands, Brisbane and Gold Coast if desired

Potential

This business has been established looking at a lifestyle and maximum return on all equipment. For 3 days average work each week the owner is earning over \$100,000. He selects the jobs to win and could easily win more if willing. Currently the business sub contracts tree stump grinding and mulching to focus on the tree lopping service and maximising the returns while lowering maintenance and staff costs.

About the Business

The business has established relationships with Real Estate agents servicing rental roles as well as having performed work for council, schools and other corporate clients. Adding to this the great referral base of work for private clients also provides at least half the work in an average month.

The business is currently run by the owner in the main role of arborist while a regular staff member ensures efficiency with removal and clearing of sites with loading of offcuts into the vehicles and trailer.

Vehicles and equipment is estimated at between \$40,000 and \$50,000 at current market value.

This is currently run as a lifestyle business with the owner admitting to winning only the jobs he wants and having double that to select if wanting to work more.
